DETELGY

October 2026

Where expertise becomes opportunity.

Helping polygraph professionals grow, build reputation, expand their network, and unlock new opportunities.

A global ecosystem for polygraph professionals ↗

A global profession.
Still disconnected.

Profiles, clients, peers, and learning still live in separate places.

Start with professionals who want to grow

Independent examiners first. Established and emerging peers complete the community.

Primary focus

Growth-oriented examiner

Build a practice and a credible professional presence.

Knowledge & trust

Established expert

Share experience, mentor peers and extend professional impact.

Learning & belonging

Emerging professional

Find guidance, gain confidence and develop useful relationships.

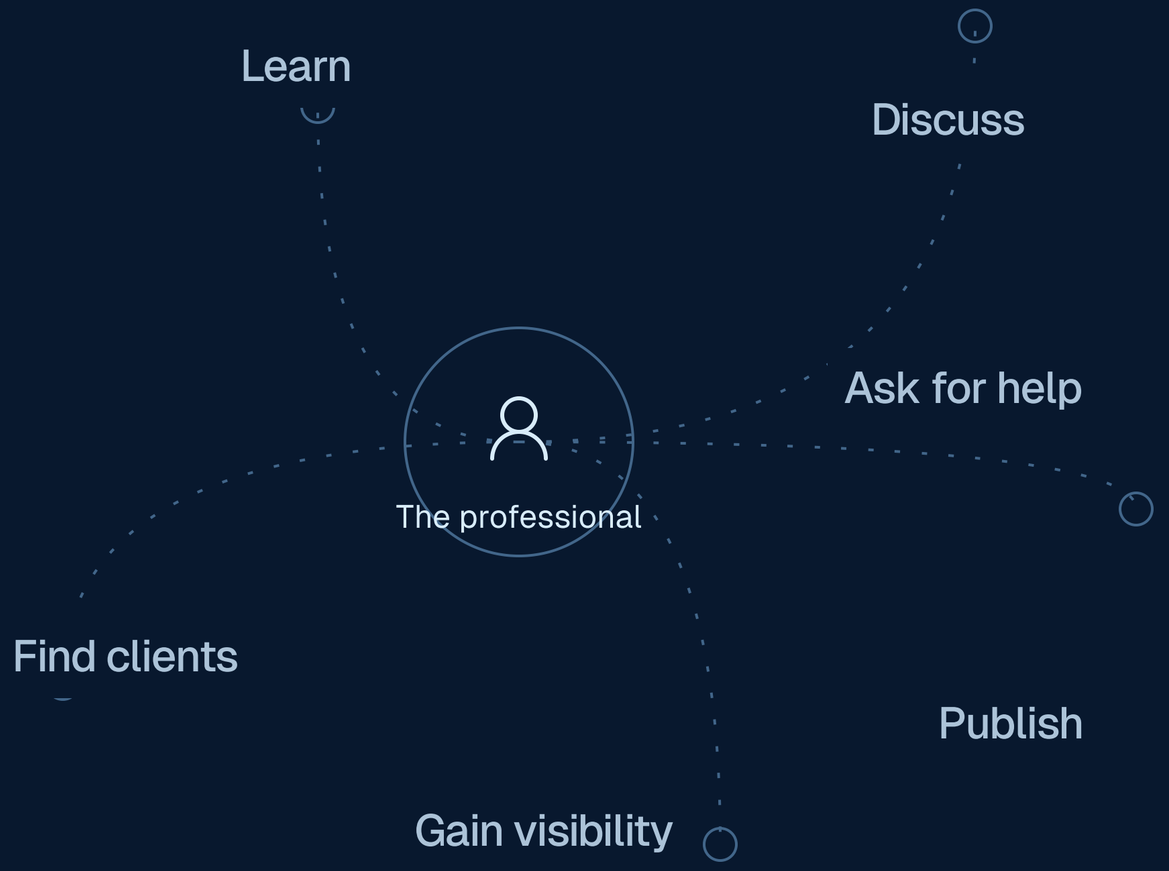

Skilled at the work. Limited by the system around it.

Recognition	Be known beyond an existing circle.
Connection	Find the right people to turn to.
Opportunity	Make expertise easier to discover.

Too much depends on individual effort

A capable professional may have to connect every part of the journey alone.

Expertise alone does not guarantee opportunity

Visibility, trusted support and new opportunities can be hard to build alone.

Hard to be seen.

Limited discoverability and scattered trust signals.

Visibility

Hard to grow alone.

Professional isolation and barriers to relevant learning.

Support

Hard to go further.

Uncertain client flow and narrow earning paths.

Opportunity

Illustrative research hypotheses · these are not customer quotations

Four jobs. One professional journey.

People come for progress that matters to them.

Become better

Learn from experienced peers.

Become known

Build a credible professional reputation.

Find opportunities

Meet clients, collaborators and relevant peers.

Monetize expertise

Offer consultations, mentoring or teaching.

Working JTBD hypotheses · paid peer services and education are planned

From fragmented effort to connected professional growth

Before

- Scattered identity
- Knowledge in isolation
- A narrow earning path

With Detelgy

One professional presence

Profiles & discovery · built foundation

Useful peer connections

Community · built foundation

More ways to create value

Consulting, mentorship & teaching · planned

Intended transformation · access to opportunity does not guarantee outcomes

Different tools. One purpose: professional success.

Four ways to support the person behind the expertise.

Global and multilingual by design

Connect

Built[1]

Community discussions and peer networking

Planned

Roundtables and peer matching

Grow

Built[1]

Peer learning through useful exchanges

Planned

Consultations, mentorship and Academy

Build reputation

Built[1]

Profiles, qualifications and reviews

Planned

Articles, cases and publications

Earn

Built[1]

Service discovery and request flows

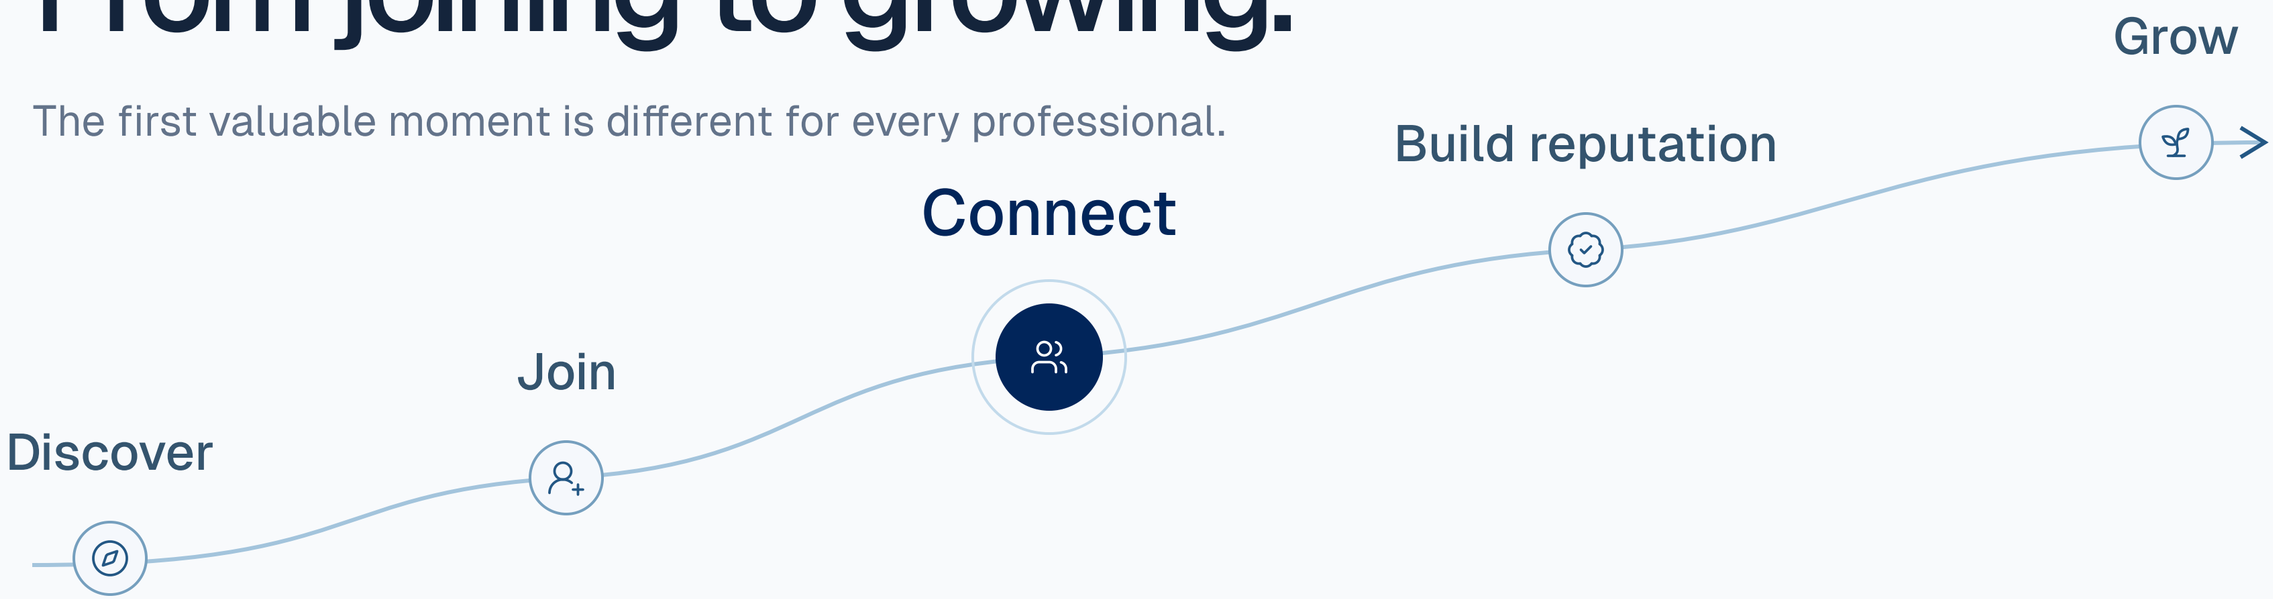

Planned

Paid transactions and peer services

[1] Built per internal brief; production readiness unverified. Paid operations remain planned.

From joining to growing.

The first valuable moment is different for every professional.

A first moment of value

First useful peer exchange

Emerging professional ↗

Practitioner

First qualified inquiry

Established expert

First meaningful peer request

Illustrative, non-linear journey · first-value moments are hypotheses

Every meaningful contribution can create more value

Useful knowledge can build visibility and trust. Relevant opportunities can give people a reason to return.

Professional success has more than one path

A stronger practice. A wider impact. A lasting contribution.

Practitioner

Build a stronger practice

Discoverability → Qualified inquiries → Completed work → Reviews & reputation

Expert

Make knowledge more useful

Participate → Publish → Consult → Recognition

Leader

Help the profession progress

Mentor → Teach → Contribute → Professional influence

Complementary paths, not ranks · some mechanisms are planned

Create value first.
Monetize the value created.

Value for the professional

A clearer professional presence

Client inquiries and completed work

Useful expertise shared with others

Revenue for the platform

Free / Plus / Pro memberships

Recurring membership model

Service commissions

On completed marketplace services

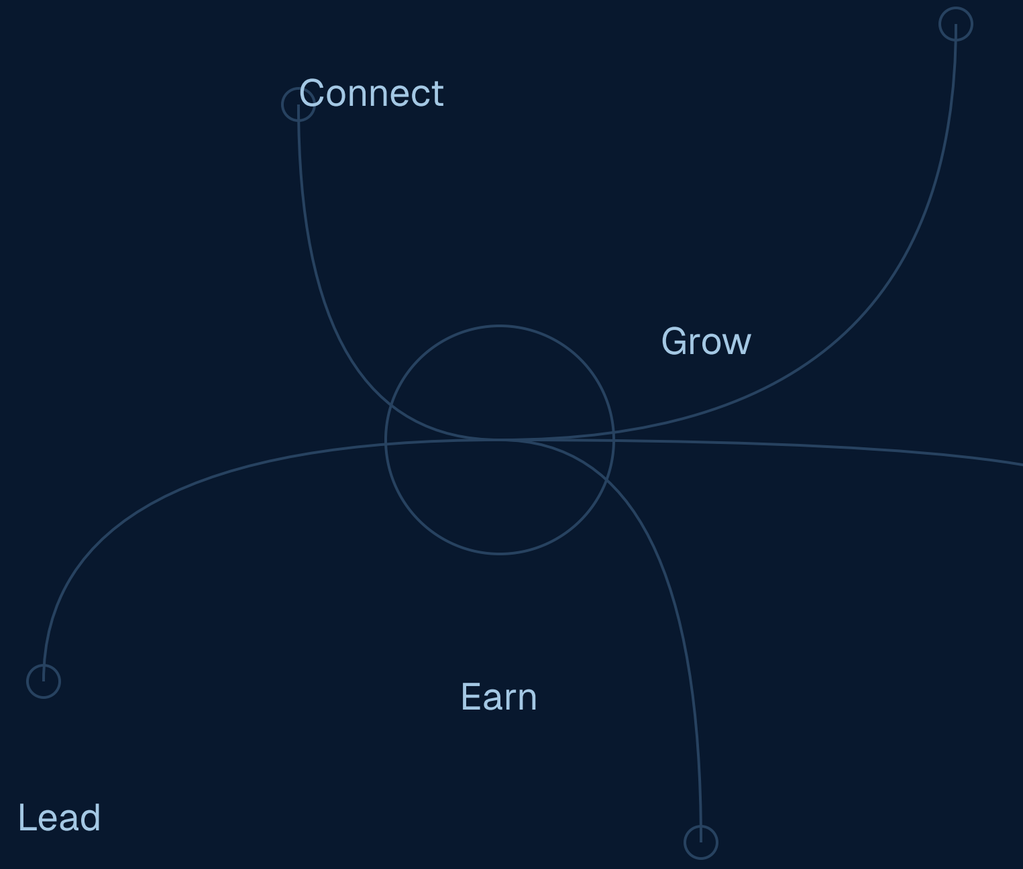

Peer services & education

Future consulting, mentoring and learning

Proposed commercial model · pricing, payment operations and demand require validation

The professional home for a global community

One professional identity. One place to connect, contribute, learn and create opportunities.

When our professionals succeed, Detelgy succeeds.
