Wants

Qualified inquiries and recognition beyond an existing circle.

Relies on

Referrals, a personal website and informal peer groups.

Struggles with

Scattered credentials, limited visibility and time for marketing.

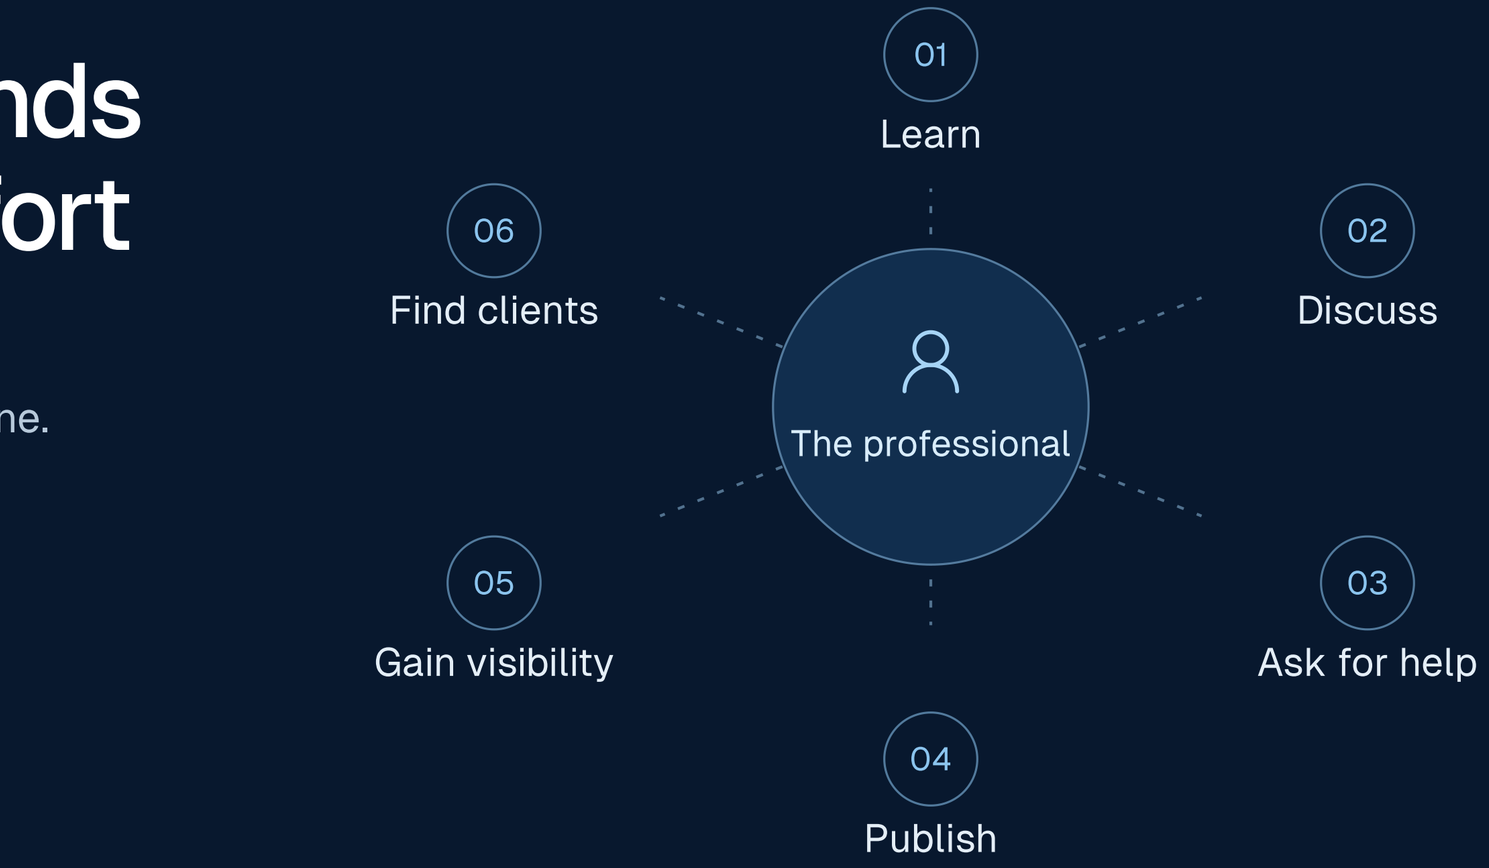

Seeks

A credible identity connected to useful people and opportunities.

THE COST OF FRAGMENTATION

Too much depends on individual effort

A capable professional may have to connect every part of the journey alone.

WHAT GETS IN THE WAY

Expertise alone does not guarantee opportunity

Visibility, trusted support and new opportunities can be hard to build alone.

01 **Professional isolation**

Who can help with a difficult professional situation?

02 **Limited discoverability**

How can the right clients find me?

03 **Scattered trust signals**

How do I show the experience behind my work?

04 **Learning barriers**

Where can I find relevant guidance?

05 **Uncertain client flow**

How can I reach beyond existing referrals?

06 **Narrow earning paths**

How else could my knowledge create value?
